

Wood Weave Tile

The exotic wood weave can be used to decorate a ceiling or wall in any room. Its design is unique because it has no seams. Currently, it is offered in cherry, maple or oak.

- Beautify areas
- special orders available in other wood species
- simple installation (view installation below)
- Interlocks from all sides
- Seams are completely hidden for a continuous appearance

cherry

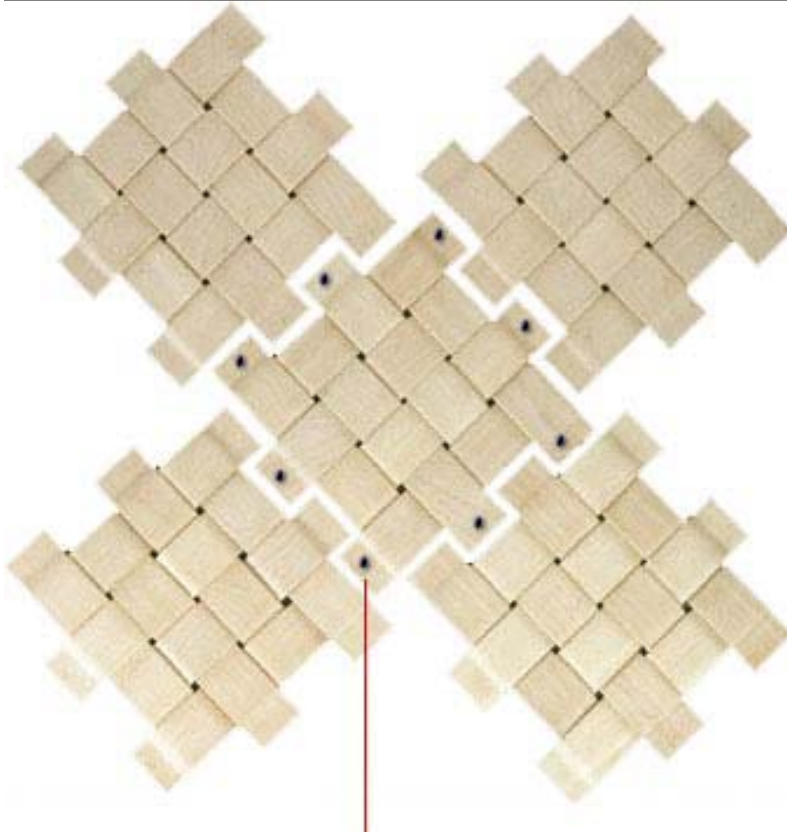

maple

red oak

How to install

Step 1
Use nails, drywall screws, or glue to fasten tiles.

Step 2
Interlock other tiles to cover fastening.
